Portable FILEminimizer Office Crack With License Key PC/Windows [March-2022]

Portable FILEminimizer is the portable version of FILEminimizer, an application that can help you reduce the size of PowerPoint, Word and Excel documents. Since this is a portable application, you can copy it on any USB flash drive or other devices, and take it with you whenever you need to free up the space from a computer by reducing the size of different files. The user interface is clean and offers quick access to all its main functions. You can drag and drop the files directly into the main window, or use the built-in browse function. The application can work with a wide range of file formats, namely PPT, PPTX, DOC, DOCX, XLS, XLSX, and others. It bundles a powerful built-in search function that allows users to find the documents they are looking for by size, date or file format. The resizing process can be carried out in three different modes, as you can select between strong, standard or low compression options. It is also possible to configure the compression settings by choosing the screen resolution, JPEG, DOC and XLSX quality, as well as by making the program keep the original JPEG compression factor. You can make Portable FILEminimizer replace the original files instead of creating new ones, add a suffix to the filename, change the default output directory, and others. In conclusion, Portable FILEminimizer can help you reduce the size of your files quickly and with minimum effort. No errors showed up during our testing and, thanks to its overall simplicity and useful features, this utility can be mastered by beginners and experts alike. Portable FILEminimizer Office PC/Windows

Portable FILEminimizer Office is the most advance and powerful portable application that can reduce the size of PowerPoint, Word and Excel documents easily. You can copy the application on your flash drive and carry it with you whenever you need to free up a lot of hard drive space by reducing the size of different files. This is not a simple scan/delete method. Instead, we compress all the files by reducing their size by a factor of 10. To improve the compression results, Portable FILEminimizer Office comes with an in-built powerful search feature. You will be able to find files and compress them very easily by selecting the file size, download date and file type. If the file is your own project and you are working on several projects, this is a perfect software for you. Portable FILEminimizer Office is a multi-platform application which works on Windows, Linux and Macintosh OS X as well. Furthermore, Portable FILEminimizer Office will save your time by replacing the original files instead of making new ones, add a suffix to the filename, change the default output directory, and others. As you can see, Portable FILEminimizer Office is the most efficient and quickest way to reduce the size of PowerPoint, Word and Excel documents. So just copy the application to your flash drive or portable hard drive, and move away from your computer. When you need to compress some files, just run the application and select the files. ScanDisk, the world's most advanced software to scan computers for hard drive issues, will scan every hard drive in your computer for errors and defects and then diagnose and repair them automatically. ScanDisk will find and fix Disk Defrag issues, Error 1727, Dirty Bit errors, and corrupt partitions (Free space in Volume). ScanDisk will detect and fix this issues in a minute ScanDisk will find and fix Disk Defrag issues, Error 1727, Dirty Bit errors, and corrupt partitions (Free space in Volume). ScanDisk will detect and fix this issues in a minute. ScanDisk detects 'No Root' errors, corrupted C_Sectors, and Free Space in Volume. ScanDisk fixes errors caused by Disk Defrag, FireWire, Hard disk issues. ScanDisk will remove Microsoft Error, System repair, and virus and will fix and optimize your computer. Besides its recovery and optimization features, ScanDisk will scan and recover huge number of files types, such as Microsoft Word,

What's New In?
