Uploading a ZIP to FORGE requires that a file be uploaded. This is either a file within your FORGE account or a zip archive that you have downloaded from the Internet. For a zip file, you'll want to unzip the archive using the relevant zip utility. If you haven't already done so, log into FORGE, then navigate to File Forge and select Upload a zip file. After you complete the upload, you'll be taken to your Workspace, where you can work with your zip archive. If you're creating a FORGE resource you won't be uploading a zip, but rather a file. Follow the instructions to create a file. Note that you can upload a single file OR a zip of multiple files. Files are separated by a file type character, so, for example, you can upload a single file or the contents of a zip of three individual files.The Legend of Zelda: Symphony of the Goddesses returns with its orchestral concert tour, which includes two new additions: a new symphony and two new soundtracks.
