Introduction: The main purpose of Final Cut Pro is to make editing and. The latest version of Final Cut Pro X is 10.3.4, released in 2014.As part of its response to the UK government's advice on vaccination, the Department of Health has published a document on the evidence it is relying upon, as well as the advice of experts on the threat the measles virus poses. The document, published after the consultation on the subject closed, gives a comprehensive overview of the strength of evidence that measles is a threat, and how the current evidence fits within the context of the UK's vaccination programme. Relying on several separate scientific publications, the document includes reviews of evidence that "measles is a significant public health threat in the UK" and "the case for vaccinating everyone at high risk of being infected, including the unimmunised population, will be strengthened if measles is a threat in the UK." It builds on comments made by the Health Protection Agency (HPA) last week, when it stated that research was "firmly behind the evidence" that the virus is a significant risk to people who have not been fully immunised. The HPA's comments form the basis of the scientific strength of evidence that has informed the advice being given by the

Department of Health and Medicines and Healthcare Products Regulatory Agency (MHRA). In its document, the DH said that "insufficient data are available to assess whether wild-type measles 1cdb36666d
