In-depth review can be found at vanguardtanks.com. You can read more about the game here: FAQs 1. The product description says there is only 1 free DLC but there is a 2nd one already for sale. How come? The DLC that is covered in this review was the first DLC. It's free to all players but you will have to fulfill a certain requirement to access it. 2. Can I add the DLC to steam? No you cannot, as the DLC was bought before steam started business and is limited to keys that are still available. 3. How do I install the DLC? It is not ready to install as of yet. You will have to buy the DLC to be able to install it. 4. How do I play with this DLC? You have to redeem a key from one of the players in the server. What's new:

Story about Whalers series, sheesh, this is getting long. Apologies for the length of the thing. I HAD to get this out of my system, considering what was happening to my homies. Sheet = 2 pages = huge THE BIG ROC This one goes to Lae, the little girl who was in the White Cabin when the Grapewine got all bothered up and came back to take The Lot, and then got all zombified by it. When we figure out what the whole Grapewine thing even is, it'll be like sweet! Relief! Suddenly you'll be in the middle of lots of secrets and not know what the hell's going on because we'll kinda have been alive long enough to know the big stuff. Like, really. Whalers note: when we realize that the Whaleboat was separated from us, that means when we realized the entire boat might be a sorta bad thing to mess with. Because...um..this is what happened? We dropped everything and grabbed every fucker we could find, to kamakaze ahead to the entire boat because the "Frankenstein" wasn't working too well- WHOOPS. ZANG! Whoops. God I forgot. WHORE. ZANG. We're getting a Zang, folks, aren't we? So, when we get onboard the ship, which will be named after Rose, after her on the Mercy, we realize the boy in the top hat had said they were in the "whaling business" for like the first 3 weeks, not, like "Oh, we are in the shipping business" and that they were supposed to finally be there on Friday. Yyyeye! But (you knew I was going to say that, right?) the Captain Charlie hated the ship and went overboard the week after, and we're going to see what happened to him. Then, Rose gets a polite yet slightly evasive email back from the Baird Women, thanking her for staying behind, not-so-thankfully sharing her address to the devil (slightly shaky handwriting from walking to the mailbox to give the letter), and promising what they expect will be the first of many trips on the Whaler. And then a knock at the door! Good thing Mr. L
