Nausicaa of the Valley of the Wind" happen to have watched the movie before, but i had not because it was kinda long and boring, but i ended up falling in love with the game, so yeah, i had to watch this again, and it was just... ahh, let's go with the rating of this game, that beautiful movie that started my love for beautiful worlds... It is just a beautiful movie, and the game made from it only enhances the beauty of the movie... That is what i can say about this game... the game is actually the "god of war" plus a bit, with a beautiful setting (though i can't say the game is that beautiful), story, interesting set of characters, one of my favorite bosses in the game, just the whole enchilada in this game... And it is not only a beautiful fantasy world with monsters that you fight with your skill in sword fighting, but it is also your imagination as you unlock the world, so you can also imagine what you want to imagine to the game, so you can play how you like this game... I think this game is a must get game if you want a very sweet fantasy experience, or you may also try to think up an idea of your own, so you can play how you like and if you see yourself in your idea, you can customize the game setting and stuff like that to fit your idea... @theone who made this review, i just want to say... thanks for all your hard work to make this game, the game feels totally worth the downloading to your console, and also, i am glad to have you as a fan, because, like i said before, i really like how you thought up the game, so thanks again for the hard work... @Nintendo, i am actually pretty sure this game is a must get game from you, because, like i said before, with that movie like setting, the game actually brings you a complete fantasy world for you to enjoy, not only with the enemies you fight and the fun of sword fighting, but also with the thinking to your own imagination, you can actually create your own fantasy world, and with that, there is also a story that takes you through the years of your life in that fantasy world, like beign guided to the land of the dead, and after that, be guided to the lands of the Elden Ring, and everything you bff6bb2d33

Unfortunately im now an ex dark souls 1 fan but this game just sucks....I still believe it can be fixed if they can give me my \$50 back but im not holding my breath...All in all this game is a load of rubbish and even when you die the game just keeps on rolling along with a password of your name and surname.....
