The invention pertains to wound dressings and, more particularly, to sheet-like dressings which are both adhesive and anti-adhesive. Conventional dressings for wounds are commonly formed of fibrous material, such as cotton gauze. The fibrous material has the disadvantage of being unduly abrasive. For example, the fibrous material may abrade the wound resulting in increased bleeding and difficulty in healing the wound. Also, conventional dressings formed of fibrous material are difficult to keep dry while on the patient. Although certain dressings of foam material have been proposed, such foam dressings also tend to be abrasive and difficult to keep dry.

### Wedding Vows

Your wedding is one of the most important days in your life, and it will be a moment you will remember for the rest of your lives. It is important that you put your minds to writing your wedding vows. When coming up with your wedding vows it is important that you are practical. There are some rules that you must follow. Some of them are: You must end your wedding vows by wishing to live your marriage with honesty, integrity and kindness. Your wedding vows must avoid clichés. You must think of something clever to use, rather than just using “I love you”. Find out what your guests really want to hear, and include that in your wedding vows. You should learn the meaning of your wedding vows, and know their true purpose. If you do not, your wedding will not be a success. Your wedding vows should be easy to say, but hard to forget. When you are writing your wedding vows remember to be sincere and keep them simple. Wedding vows have the power to change the way you think about your partner. Your wedding vows should include many elements such as wisdom, speech making abilities, and charisma. These should be combined to form the best wedding vows. You have to work out who you are and what you stand for. You need to know your aspirations, your personality, your passion, your strengths, and your weaknesses. You need to write your wedding vows with detail, and from the heart. Traditionally, university students have used the use of cars for transportation. However, for some members of the student population, such as older students and those that are unemployed, there are not many transportation options in addition to driving. To further combat student reliance on the use of automobiles, many universities have started
