BibleWorks 9 Personal Edition....Q: Getting java.io.IOException: Wrote zero bytes in file If I run an application that actually reads some of the files in a directory, it results in the following exception.

java.io.IOException: Wrote zero bytes in file I've looked through various posts that recommend to check the write permissions. Nevertheless, I can create the directory and then create sub-directories in it with

```
public static boolean createDirectoryIfNotExists(File directory) { if(!(directory.exists())) { // if directory
```

```
does not exists, create directory try { directory.mkdirs(); } catch(Throwable t) { // logging(logger,
```

```
DEBUG_LEVEL, "Writing zero bytes in directory %s", directory.getAbsolutePath()); // if directory does not
```

```
exists, create directory } } return directory.exists(); } The write permissions for the files are private
```

```
static void setWritePermissions(File file, boolean directory) throws IOException { if(!directory) // file:
```

```
directory file.setReadable(true, false); file.setWritable(true, true); 6d1f23a050
